SKILLS

- **Languages:** C++, JavaScript, C, PHP
- **Frameworks:** HTML and CSS, Telewind, NodeJS, React, Express
- **Tools/Platforms:** MySQL, MongoDB
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability

PROJECTS

- **Message-Slake (Real time chatting application) :** Sep 2024 – Jan 2025

Developed a fully interactive messaging application using MERN stack.
Implemented real-time communication using websockets including video calling.
Designed a real-time mailing system using Nodemailer to handle email-based notification.
Utilised AWS S3 for efficient metadata storage and management of file input types.
Design an intuitive user interface to enhance user experience and engagement.
Optimised database design and ensured robust API integration for seamless backend performance.

Tech: React, Node.js, MongoDB, WebSockets, WebRtc, AWS, Nodemailer.
- **ImageGram:** July 2024 – Sep 2024

Designed and wrote a RESTful API using Node.js and Express.js to handle user authentication, image uploads, and data retrieval.
Incorporated JWT-based authentication to ensure secure user login and session management.
Integrated AWS S3 for efficient and scalable storage of user-uploaded images.
Utilised MongoDB to design a normalised schema for storing user profiles, posts, and associated metadata.
Implemented password hashing using bcrypt.js to securely store user credentials.
Planned a scalable architecture capable of handling concurrent user requests for image uploads and retrieval
Delivered a lightweight, responsive backend capable of integrating with any frontend framework or mobile app.

Tech: React, Express, Node.js, MongoDB.
- **Crypto Currency Tracker :** May 2024 – June 2024

Developed a React-based frontend application to display cryptocurrency data using the API.
Integrated the CoinGecko API to fetch real-time cryptocurrency data, ensuring accurate and up-to-date information.
Applied data caching for 1-minute intervals to optimize backend load and improve app performance.
Designed and executed a paginated UI for smooth browsing of multiple cryptocurrencies and fallback UI for better experience.

Tech: HTML, React, Tailwind CSS, Javascript.

CERTIFICATES

- Mern Stack – By Cse Pathsala June 2024
- Design And Analysis of Algorithm – By Coursera Mar 2024
- Data Structure and Algorithms - by Physics Wallah Dec 2023

ACHIEVEMENTS

- **Amongst top 10 in GFG Hack-A-Throne** Sep 2024

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.1** Since August 2022
- **Inter Mathurasini Mahavidyalaya** Rajauli, Bihar
Intermediate; **Percentage: 77%** April 2019 - March 2021
- **BPM International High School** Nawada, Bihar
Matriculation; **Percentage: 89%** April 2013 - March 2019
